Nätverket
Renare Mark

OBJECTIVE

The Nordic countries hereby invite you to NORDROCS, a joint Nordic meeting on contaminated areas to be held in Malmö, south Sweden, September 20–21, 2006. The objective of NORDROCS is to address issues on contaminated site remediation and assessment in the context of Nordic conditions. The meeting intends to provide a forum for the exchange of information gathered through research and project experience. Target groups include consultants, contractors, scientists, regulators and other professionals working with contaminated areas under Nordic conditions.

ABSTRACT & PAPER SUBMISSION

Speakers will be selected from abstracts and we welcome submissions in English on relevant topics for oral presentation or poster. Deadline for abstracts is January 31, 2006. A short paper will be required by all speakers before the meeting. Abstracts and papers are assessed in a review committee. More information and instructions on submission can be found on the web page: www.renaremark.se/nordrocs.

PROGRAMME

NORDROCS focuses on the latest news in research and development as well as implemented techniques for contaminated areas. The topics presented, partly as parallel sessions, represent the issues associated with contaminated sites in the Nordic countries and will include:

- STATE-OF-THE-ART PROJECTS FROM THE NORDIC COUNTRIES
- NEW CONTAMINANTS
- RISK ASSESSMENT
- CONTAMINATED WATERS AND SEDIMENTS
- LANDFILL DIRECTIVE AND LEACHING TESTS
- REMEDIATION TECHNOLOGIES

Our keynote speakers will also highlight national policies and risk-based decision making.

EXCURSIONS

In addition to NORDROCS, excursions will be arranged the day after the meeting. We invite you to visit sites in the expansive area of the cities of Malmö and Copenhagen as well as the large remediation projects in the vicinity.

REGISTRATION & INFORMATION

Registration needs to be completed by June 2006. A registration form will be available in April 2006 on the web page
