Turnover (MGBP)

Forward-looking as well as Retroactive Cover Available from Insurers

- Insurance coverage can cover both historic pollution and remediation risks as well as forward-looking incidents
- Insurance perils vary between insurers, but would typically cover
 - Pollution and remediation for third party bodily injury and property damage, on- and offsite
 - Pollution and remediation costs including emergency costs, on- and offsite
 - Natural resource damage, including preventative measures
 - Pollution and remediation losses for operations and transportation
 - Legal expenses
- Typical exclusions for an environmental liability policy
 - Material change in use or operations
 - Known (often defined) conditions
 - Nuclear, radioactive, asbestos, etc
 - Underground storage tanks

Insurance Process Relatively Straightforward

Retroactive and Forwardlooking Two Different Types of Interrelated Covers
